

Hello, I'm

# AUBREY YOUNG

UX DESIGNER LOS ANGELES CA

*I am a passionate designer whose strengths lie in crafting engaging user experiences by turning complex problems into intuitive solutions. With skills in **UX research, UI design, branding, and web development**, my goal is to enhance the user experience and contribute to a less distracting world.*

*With structure, comes freedom. Let's design.*

## WORK EXPERIENCE

USER INTERFACE/USER EXPERIENCE DESIGNER | 01/2018–Present  
AY CODE+DESIGN

- I apply usability research methods and data analysis to inform design decisions, resulting in a 20% increase in user satisfaction and engagement.
- Increased business profits by approximately 15% from 2018-2023 by creating intuitive user interface prototypes and website redesigns, which optimized customer services.
- Streamlined design communication by developing comprehensive task flows and style guides, resulting in 10% faster stakeholder decision-making and effective budget management.

INFORMATION TECHNOLOGY SUPERVISOR | 03/2020–12/2023  
United States Census Bureau

- Increased inventory management efficiency by 80% (from 10 to 2 hours/week) by engineering a system in Excel and Power BI for 1000+ devices, resulting in significant time savings.
- Improved training efficiency by coordinating classroom and remote training and travel for 200+ census survey takers on the West coast, reducing travel and training costs by 10%.
- Ensured compliance with upgraded requirements by leading the testing and implementation of new personnel management software in 3 months, resulting in improved employee tracking.

DESIGN SUPERVISOR/STUDENT TUTOR | 01/2018–03/2019  
Art Institute of California - Hollywood

- Optimized the school website's functionality and user experience by eradicating outdated links and documents from 35% to 0% in 3 months, enhancing visitor accessibility.
- Elevated event visibility and engagement by prioritizing content planning and producing 50+ multimedia posters and bulletins, enhancing event promotion and audience interaction.
- Offered detailed tutoring in web coding and Adobe Suite tools, fostering student creativity and skill development, resulting in improved student project outcomes and skill acquisition.
